

2009 **FOURTRAX RECON/ES**

*All-out performance  
in an agile,  
mid-sized package.*

**FOURTRAX RECON/ES** At Honda, we know bigger isn't always better—especially when it comes to maneuvering up a tight trail, loading up after a long weekend, or filling up at the pump. That's why we built the uniquely right-sized Honda FourTrax® Recon®, an ATV that's big on performance, durability and fun, but with a smaller engine and a more compact footprint that lets it maneuver down trails and get into and out of tight spots that some bigger ATVs might find hard to manage.

## UNIQUE FEATURES

- Lightweight, OHV air-cooled 229cc engine is longitudinally mounted to allow direct driveshaft alignment to rear wheels for fewer frictional losses.
- Virtually maintenance-free shaft drive routes power directly from the longitudinally mounted engine without inefficient directional changes.
- 22mm carburetor with light throttle control offers good engine response and fuel economy.
- Overhead-valve design offers a wide, easy-to-use powerband and compact engine dimensions.
- Convenient electric starter with auxiliary recoil starter.
- Five-speed transmission with reverse and automatic clutch, ES model features Electric Shift Program™ (ESP®) for pushbutton upshifting and downshifting.
